Moore's Range

Just a slight pull on the chain and up comes the Hinged Top, forming a hood which draws all smoke or odors back into the range, thus preventing their escape into the room. This is the handy way to broil, toast or fix the fire. It is Moore's Patent and can be had only on Moore's Ranges. Then there is Moore's Accurate Oven Thermometer, just try it once and you will never be without it. It does away with guessing and makes baking and roasting absolutely sure. Moore's Ranges are made of steel and asbestos. They are almost indestructible. They combine fuel economy and save in so many ways that they actually repay their cost in a short time.

Are you planning to buy either a cooking or heating stove? Be sure to get Moore's complete line—the latest—the most improved—the best for all purposes.
